---------------------	---------------

MULTIPLICATION STAGE 1			
Progression	Concrete	Pictorial	Abstract
<p>Understand the language of doubling.</p> <p>Vocabulary: lots of, sets of, groups of, equal groups, double, doubling, pattern, twice as much/many as.</p>	 <p>Use objects to understand what doubling means – e.g. counting the spots on both sides of a ladybird...</p>		
<p>Doubles</p> <p>Year 1 – doubles to 10.</p> <p>Year 2 – doubles to 20.</p> <p>Vocabulary: row, column, multiply, multiplied by, multiplication, times.</p>	<p>Use practical activities to show how to double a number.</p>  <p>double 4 is 8 <math>4 \times 2 = 8</math></p> <p>Before showing the multiplication sign use the word lots of, when confident with doubling introduce the concept that doubling is the same as multiplying by 2.</p>	<p>Draw pictures to show how to double a number.</p> <p>Double 4 is 8</p> 	 <p>Partition a number and then double each part before recombining it back together.</p>
<p>Counting in multiples. (Count in repeated groups of the same size).</p> <p>Foundation Stage: 1s, 2s and 10s.</p> <p>Year 1: 1s, 2s, 5s, 10s and 3s.</p> <p>Year 2: 1s, 2s, 5s, 10s, 3s and 4s.</p> <p>Vocabulary: multiple of.</p>	 <p>Count in multiples supported by concrete objects in equal groups.</p>	 <p>Use a number line or pictures to continue support in counting in multiples.</p>	<p>Count in multiples of a number aloud.</p> <p>Write sequences with multiples of numbers:</p> <p>2,4,6,8,10</p> <p>5,10,15,20,25,30</p>

<p><b>Underlying skills</b></p> <ul style="list-style-type: none"><li>Count objects accurately using one to one correspondence matching a number name to each object.</li><li>Number recognition 0-20.</li><li>Count up to 20.</li><li>Count in 2s, 5s and 10s as appropriate.</li><li>Place value – order numbers 0-20 in size.</li><li>Number bonds to 10.</li></ul>	<p><b>Active Learning Through Models and Images</b></p> 		
<p><b>MULTIPLICATION STAGE 2</b></p>			
<p><b>Progression</b></p> <p>The x sign as repeated addition and lots of.</p> <p>Vocabulary: repeated addition, 2/3/5... times as many/much as.</p>	<p><b>Concrete</b></p> 	<p><b>Pictorial</b></p> <p>There are 3 plates. Each plate has 2 star biscuits on. How many biscuits are there?</p> 	<p><b>Abstract</b></p> <p>Write addition sentences to describe objects and pictures.</p> 
<p>Arrays – showing commutative multiplication.</p> <p>Vocabulary: array, commutative law, calculation, equation, factor, multiple, product, inverse.</p>	<p>Create arrays using counters/ cubes to show multiplication sentences.</p> 	<p>Draw arrays in different rotations to find <b>commutative</b> multiplication sentences.</p>  <p>Link arrays to area of rectangles.</p>	<p>Use an array to write multiplication sentences and reinforce repeated addition.</p>  <p><math>5 + 5 + 5 = 15</math> <math>3 + 3 + 3 + 3 + 3 = 15</math> <math>5 \times 3 = 15</math> <math>3 \times 5 = 15</math></p>
<p><b>Underlying skills</b></p> <ul style="list-style-type: none"><li>Count forwards in steps of different single digit numbers</li></ul>	<p><b>Active Learning Through Models and Images</b></p>		

accurately.

Understand multiplication as repeated addition.

MULTIPLICATION STAGE 3

Progression	Concrete	Pictorial	Abstract
<div>Use partitioning to multiply larger numbers.</div>	<div> <div>Children can continue to be supported by place value counters at the stage of multiplication.</div> <div> </div> <div>It is important at this stage that they always multiply the ones first and note down their answer followed by the tens which they note below.</div> </div>	<div> <div>Use of a number line to solve 15 x 4:</div> <div>A number line can also be used</div> <div> </div> <div>Bar modelling and number lines can support learners when solving problems with multiplication alongside the formal written methods.</div> <div> </div> </div>	<div> <div>64 x 3 =</div> <div>60 x 3 = 180</div> <div>4 x 3 = 12</div> <div>180 + 12 = 192</div> </div>

Underlying skills	
<div> <div>Partition numbers</div> </div>	<div>56 = 50 + 6</div>

<div>appropriately.</div> <div><ul style="list-style-type: none"><li>Recall appropriate multiplication facts.</li><li>Multiply numbers by 10, 100, 1000.</li><li>Multiply multiples of 10.</li><li>Add together 2, 3, or 4 digit numbers.</li></ul></div>	<div>27 = 20 + 7</div> <div>5 x 2 = 10 50 x 2 = 100 5 x 20 = 100 50 x 20 = 1000</div> <div>6 x 1 = 6 6 x 10 = 60 6 x 100 = 600 6 x 1000 = 6000</div> <div>6 x 1 = 6    6 x 10 = 60    6 x 100 = 600 6 x 2= 12    6 x 20 = 120    6 x 200 = 1200 6 x 3 = 18    6 x 30 = 180    6 x 300 = 1800 6 x 4 = 24    6 x 40 = 240    6 x 400 = 2400</div> <div>1350 + 162  1000 + 300 + 50 = 1350 100 + 60 + 2 = 162 1000 + 400 + 110 + 2 = 1512</div>		
MULTIPLICATION STAGE 4			
Progression	Concrete	Pictorial	Abstract

Use the grid method to multiply bigger numbers.

Show the link with arrays to first introduce the grid method.

Move on to using Base 10 to move towards a more compact method.

Move on to place value counters to show how we are finding groups of a number. We are multiplying by 4 so we need 4 rows.

Fill each row with 126.

Add up each column, starting with the ones making any exchanges needed.

Then you have your answer.

Children can represent the work they have done with place value counters in a way that they understand

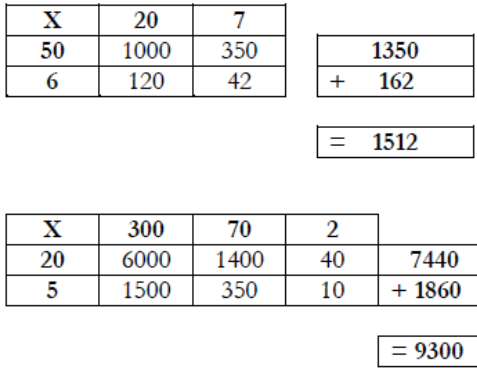

They can draw the counters, using colours to show different amounts or just use circles in the different columns to show their thinking as shown below.

Start with multiplying by one digit numbers and showing the clear addition alongside the grid:

Moving forward, multiply by a 2 digit number showing the different rows within the grid method:

Underlying skills

- Partition numbers appropriately.
- Recall appropriate multiplication facts.
- Multiply numbers by 10, 100, 1000.

56 = 50 + 6  
27 = 20 + 7  
5 x 2 = 10  
50 x 2 = 100  
5 x 20 = 100  
50 x 20 = 1000  
6 x 1 = 6  
6 x 10 = 60  
6 x 100 = 600  
6 x 1000 = 6000  
6 x 1 = 6    6 x 10 = 60    6 x 100 = 600

<ul style="list-style-type: none"><li>Multiply multiples of 10.</li></ul> <p>Add together 2, 3, or 4 digit numbers.</p>	<div><div><div><math>6 \times 2 = 12</math></div><div><math>6 \times 3 = 18</math></div><div><math>6 \times 4 = 24</math></div></div><div><div><math>6 \times 20 = 120</math></div><div><math>6 \times 30 = 180</math></div><div><math>6 \times 40 = 240</math></div></div><div><div><math>6 \times 200 = 1200</math></div><div><math>6 \times 300 = 1800</math></div><div><math>6 \times 400 = 2400</math></div></div></div> <div><math>1350 + 162</math> <math>1000 + 300 + 50 = 1350</math> <math>100 + 60 + 2 = 162</math> <math>1000 + 400 + 110 + 2 = 1512</math></div>		
MULTIPLICATION STAGE 5			
Progression	Concrete	Pictorial	Abstract
<p>Formal column multiplication for whole number times single digit number.</p> <p>Start with no exchanging before moving on to exchanging.</p> <p>Vocabulary: short multiplication, associative law, distributive law.</p>	<p>Formal column method with place value counters.</p> <p><math>6 \times 23</math></p> <div><div><div>100s</div><div>10s</div><div>1s</div></div><div><div></div><div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div></div> <div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div> <div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div>	<p>Children to represent the counters/base 10, pictorially e.g. the image below.</p> <div><div>100s</div><div>10s</div><div>1s</div></div> <div><div></div><div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div>	<p>Children must be taught to line up columns.</p> <div><div>23</div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div></div> <div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div> <div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div> <p>Move on to compact formal written method below:</p> <div><div><div><math>6 \times 23 =</math></div><div><div>23</div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div></div></div></div>
<p>To move on to 3d and 4d x 1d they should be confident with the compact formal written method above. Introduce the associative law and distributive laws of multiplication – could be separate investigations.</p>			
<p>Formal column multiplication for decimals X single digit number.</p> <p>Start with no exchanging before moving on to exchanging.</p>	<p>Sam, Tara and Emily have £16.20 each. How much do they have altogether?</p> <p>Calculation = <math>\pounds 16.20 \times 3</math></p> <div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div></div> <div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div> <div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div> <div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div> <div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div> <div><div><math>\pounds 10 \times 3 = \pounds 30</math></div><div><math>\pounds 5 \times 3 = \pounds 15</math></div></div>	<p>Sam has 8 pieces of ribbon that measure 34.2cm each. How much ribbon does he have altogether?</p>	<div><div><math>16.2 \times 3</math></div><div><div>16.2</div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div></div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div> <div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div> <p>Moving on to compact formal written method below:</p> <div><div><div><div>16.2</div><div><div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div><div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div><div></div></div></div></div></div></div>

$\pounds 1 \times 3 = \pounds 3$   
 $\pounds 0.20 \times 3 = \pounds 0.60$   
  
 $\pounds 30 + \pounds 15 + \pounds 3 + \pounds 0.60 = \pounds 48.60$

Shaded in above is 3 groups of 0.2 (0.2 is the same as 20 out of 100)

0.6 of the whole is shaded (0.6 is the same as 60 out of 100)

X	30	4	0.2
8	240	32	1.6

$240 + 32 + 1.6 = 273.6$

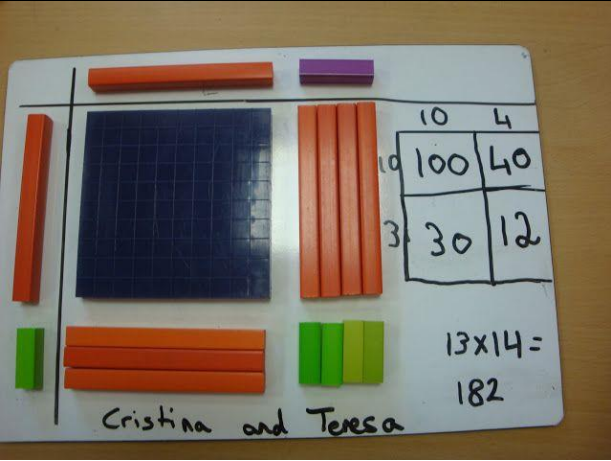

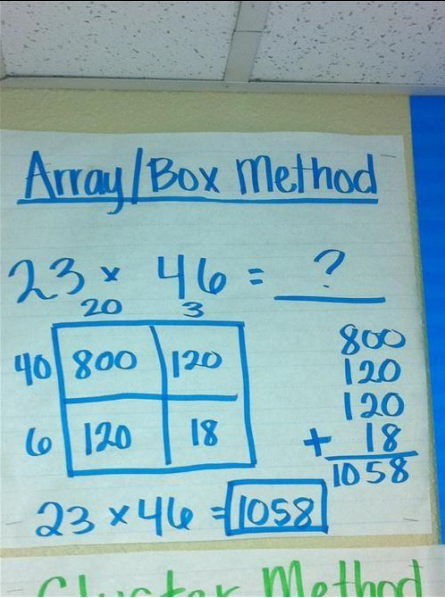

- partition numbers appropriately
- recall appropriate multiplication facts up to and including 12 x 12
- multiply numbers by 10,100 and 1000
- multiply multiples of 10,100 and 1000
- add together 2, 3 or 4 digit numbers
- Multiply decimals understanding place value.

$56 = 50 + 6$   
 $27 = 20 + 7$   
  
 $6 \times 1 = 6$   
 $6 \times 10 = 60$   
 $6 \times 100 = 600$   
 $6 \times 1000 = 6000$   
  

$6 \times 1 = 6$	$6 \times 10 = 60$	$6 \times 100 = 600$
$6 \times 2 = 12$	$6 \times 20 = 120$	$6 \times 200 = 1200$
$6 \times 3 = 18$	$6 \times 30 = 180$	$6 \times 300 = 1800$
$6 \times 4 = 24$	$6 \times 40 = 240$	$6 \times 400 = 2400$

 $1350 + 162$   
  
 $1000 + 300 + 50 = 1350$   
 $100 + 60 + 2 = 162$   
 $1000 + 400 + 110 + 2 = 1512$   
  
 $0.8 \times 0.3 = 0.24$   
  
 $8 \times 0.3 = 2.4$   
  
 $0.8 \times 3 = 2.4$

MULTIPLICATION STAGE 6			
Progression	Concrete	Pictorial	Abstract
<p>Formal column method for long multiplication up to 4d x 2d</p> <p>Start with no exchanging and multiplying by a teen number before moving on to exchanging and then larger 2 digit numbers.</p> <p>Vocabulary: long multiplication.</p>			<p>Start with the long multiplication, reminding the children about lining up their numbers clearly in columns.</p> <p>If it helps, children can write out what they are solving next to their answer.</p> $  \begin{array}{r}  32 \\  \times 24 \\  \hline  128 \\  640 \\  \hline  768  \end{array}  $ <p>This moves to the more compact method:</p> $  \begin{array}{r}  1342 \\  \times 18 \\  \hline  10736 \\  26840 \\  \hline  24156  \end{array}  $ <p>(Ensure they cross as they add the digit on)</p> <p>When multiplying by a 2 digit number that is not a teen number e.g. x 28, for the second line the children can split the 20 into 2 x 10 and do a jotting on the side.</p> $  \begin{array}{r}  1342 \\  \times 28 \\  \hline  10736 \\  26840 \\  \hline  37576  \end{array}  $ <p>(Ensure they cross as they add the digit on)</p> <p>1342 x 20 = 1342 x 2 x 10</p> <p>1342 x 2 = 2684 x 10 = 26840</p>
<p><b>Underlying Skills</b></p> <ul style="list-style-type: none"> <li>Use facts up to 12x12 to derive facts involving multiples 10/100.</li> </ul>	<p>8 x 3 = 24</p> <p>80 x 3 = 240</p> <p>8 x 30 = 240</p>		

<ul style="list-style-type: none"><li>• Recall appropriate multiplication facts.</li><li>• Multiply numbers by 10,100,100.</li><li>• Multiply and divide multiples of 10.</li><li>• Add together 2, 3 or 4 digit numbers.</li></ul>	<p>80 x 30 =2400</p>
---	----------------------
